

## Which are you? Democrat or Republican? Conservative or Liberal?

**Complete 3 political surveys** and tell me how you rank on each of them. Are you liberal, conservative, centrist/moderate? Which candidate do you match up with the most? Are there any problems with these polls, that you can determine?

Here are three I found, you are welcome to find and use others.

- [selectsmart.com/president](http://selectsmart.com/president) (This matches you to the candidates)
- [Usatoday.com/news/politics/candidate-match-game](http://Usatoday.com/news/politics/candidate-match-game) (Some have had trouble getting the survey to work.)
- [people-press.org/typology/quiz/](http://people-press.org/typology/quiz/)

Here are some others, be cautious with them:

- [politicalcompass.org](http://politicalcompass.org) (This site is more international in political scope, creates a matrix for candidates and historic figures and may use terms you may not yet know.)
- [Gotoquiz.com/politics/political-spectrum-quiz.html](http://Gotoquiz.com/politics/political-spectrum-quiz.html) (This site is sponsored by the Republican Party and the questions are written with that bias. If you find one from the Democratic Party, it would be interesting to see those questions and how they are phrased.)

**Compare the polling data** from [270towin.com](http://270towin.com) and [realclearpolitics.com](http://realclearpolitics.com). This second site has put together data from many of the national polls in one summary. How did you fare compared to the state?
